

Mr. Setrak Agonian International
Creative Metals, Inc. 37-28 61st.
Street Woodside, New York
11377-2538

To Whom It May Concern:

Please accept this as a letter of recommendation for International Creative Metals. I would recommend them for any high profile entrance door needs. I have recently worked with Setrak Agonian on 230 Park Avenue, NY, NY which is one of the most prestigious buildings in the world.

His professionalism is a standout in an industry in need of such people. His expertise in Architectural Quality metal work is second to none. This is equal to bronze castings, sheet metal work or extrusions.

If you are considering a renovation of an entry I would strongly consider having International Creative Metal do the complete work. A visit to the main entry of 230 Park Avenue will be enough to make an informed decision.

Please feel free to contact me should you require any further information.

Best regards,

DAWSON DOOR DIVISION
