To whom it may concern,

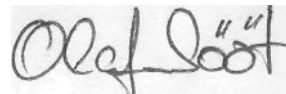

This is to inform you that we have worked in close cooperation with International Creative Metals, Inc., specifically with Mr. Setrak O. Agonian, on the Miro door project for Metromedia, Inc.

The door was reportedly artist Miro's last work and a very valuable art object. It was installed as movable sculpture in the Metromedia Conference Center in New York City. The door consists of two separate panels which were partially completed. Mr. Agonian's firm finished the job by making matching bronze panels for the opposite side of the sculpture panels and integrating them into composite units.

The work was performed in a professional manner and on time. All parties involved were highly pleased with the results.

Sincerely,

OLAF SOOT ASSOCIATES, PC

A handwritten signature in black ink that reads "Olaf Soot". The signature is written in a cursive style with a stylized "S" and "O".
