

92 NORTH AVENUE—2ND FLOOR. NEW ROCHELLE. NEW YORK 10802 • (914) 633-4222

June 2, 1987

To Whom It May Concern:

There are very few occasions when a Letter of Recommendation for a Subcontractor is written with a sincere feeling of gratitude as well. This, one of those occasions, is in behalf of International Creative Metal (I.C.M.) owned by Mr. Setrak Agonian.

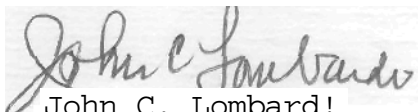

Thanks to I.C.M.'s professionalism, we were able to complete on time a project at Rockefeller Center's Skating Rink. The work required intricate fabrication and cutting of stainless steel and bronze, and had to be delivered and installed within an extremely short period of time. It required I.C.M. to work around the clock in order to meet this deadline.

His performance and quality of work was exceptional, in fact, so much so, that I.C.M. has been asked to bid other work at Rockefeller Center involving work that would exemplify the quality of workmanship demanded by Rockefeller Center Management Corporation.

It has been a pleasure having I.C.M. work as our Subcontractor.

Very truly yours,

SITE CONSULTANT & DEVELOPMENT CORPORATION

John C. Lombardi!
President
